**Don't take our city's future for granted. Let your voice be heard and Vote YES for MAPS on December 8.**

**VOTE YES FOR MAPS ON DECEMBER 8**

Oklahoma City's momentum is fueled by its investment in capital projects that create and attract jobs, improve our quality of life and grow our economy. Vote YES for Oklahoma City and vote YES on December 8.

**VOTE YES FOR MAPS ON DECEMBER 8 TO:**

- Make improvements to the Oklahoma River that make it an even better destination for family recreation as well as amateur and professional competition.
- Encourage healthier lifestyles by expanding our trails and sidewalks, and creating exercise and recreation options for seniors.
- Launch a modern rail-based transit system in the central city, connecting workers to jobs, residents to activities and visitors to our attractions.
- Replace aging, inefficient 50 and 60 year old buildings at State Fair Park with modern, user-friendly facilities.
- Create world class facilities in a 70-acre destination park for families.
- Grow our economy by elevating Oklahoma City as a tourist and convention destination with a new convention center almost tripling both the economic impact and jobs.

When we voted for MAPS in 1993, we changed this city forever. Over the past 16 years, we have witnessed a dramatic transformation, become a big-league city, attracted jobs and more than \$5 billion in private investment because of MAPS. Let's not take the future for granted. We need to make another investment in our future and continue the work we began. **Vote Yes on December 8.**
